

Achieving Points in Sustainable Building Programs

GREENGUARD Certified products are recognized and contribute to credits in many sustainable building programs and codes.

ASHRAE 189.1

A comprehensive, mandatory sustainable building standard addressing water/energy/natural resource use reduction, site sustainability, indoor environmental quality and buildings impact on atmosphere. GREENGUARD Children & Schools Certification is a compliance path for all of the following except furniture:

8.4.2 Materials

8.4.2.1 Adhesives & Sealants

8.4.2.2 Paints & Coatings

8.4.2.3 Floor Covering Materials

8.4.2.4 Composite Wood, Wood Structural Panel & Agrifiber Products

8.4.2.5 Office Furniture Systems & Seating*

8.4.2.6 Ceiling & Wall Systems

8.5.2 Materials

8.5.2 a Flooring

8.5.2 b Fabric

8.5.2 c Wall Systems

8.5.2 c Ceiling Systems

8.5.2 d Insulation

8.5.2 e Adhesives & Sealants

8.5.2 e Paints & Coatings

8.5.2 f Cabinets

8.5.2 g Office Furniture* Systems & Seating

*95% of all office furniture systems and seating need to meet GREENGUARD Indoor Air Quality criteria and 50% need to meet GREENGUARD Children & Schools criteria.

CHPS Criteria for High Performance Schools (Volume III)

The Collaborative for High Performance Schools (CHPS) is the nation's first green building rating system designed especially for K-12 schools to help them achieve high performance design, construction and operation. GREENGUARD Children & Schools Certification is a compliance path for the following:

EQ Credit 2.2 Low-Emitting Materials

GREENGUARD Certification is recognized in more than 350 sustainable building programs or specifications.

Green Globes

A building environmental design and management tool that delivers an online assessment protocol, rating system and guidance for green building design, operation and management. GREENGUARD Children & Schools Certification is a compliance path for the following:

Source Control of Indoor Pollutants – VOCs

12.2.1

12.2.1 A Adhesives: Architectural, Substrates, Specialty, Sealants

12.2.1 B Paints: Latex Flat, Latex Non-flat, Floor Coverings, Insulations, Laminates, Hard Surfaces, Wall Coverings

12.2.1 C Floors & Interior Fit-Outs

International Green Construction Code (IgCC)

The International Green Construction Code (IgCC) is designed to be a mandatory baseline building code that addresses green commercial construction and provides a framework linking sustainability with safety and performance.

806.2 (2) & 809.3.4 Adhesives & Sealants

806.3 (2) & 809.3.4 Paints & Coatings

806.4 (2) & 809.3.4 Floorcovering Materials

806.5 (2) & 809.3.4 Ceiling Tiles

806.5 (2) & 809.3.4 Wallcovering

806.5 (2) & 809.3.4 Wall Systems

806.6 & 809.3.4 Insulation

NAHB National Green Building Standard (ICC 700-2008)

An ANSI standard to establish practices for the sustainable design and construction of green residential building, building sites, subdivisions and renovations. GREENGUARD Children & Schools Certification is a compliance path for the following:

901.6 Hard Surface Flooring

901.7 Wall Coverings

901.8.2 Architectural Coatings

901.9 Adhesives & Sealants

901.11 Insulation

All certified products are listed in the GREENGUARD Product Guide, and are searchable by sustainable building programs.

GREENGUARD...
creating healthier indoor environments.
